

MANUHE WOLDE

SOFTWARE ENGINEER

PROFILE INFO

RESULTS-DRIVEN Software Engineer with expertise in full-stack JavaScript development, specializing in modern frameworks like Nuxt.js, React, and Node.js. Proven experience in leading the end-to-end development of user-centric web applications, from concept to deployment. Eager to contribute technical skills and a collaborative mindset to an innovative engineering team.

EDUCATION HISTORY

Bachelor of Science in Software Engineering 2021-2025

Wachemo University, Hossana, Ethiopia

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering Principles
- Thesis/Final Year Project: MaidFinder Web Platform

PROJECT EXPERIENCE

MaidFinder Web Platform | Full-Stack Developer 2024-2025

- Engineered a responsive front-end with Nuxt.js and Vue, implementing dynamic search filters and a secure user authentication flow, improving user engagement by an estimated 40%.
- Developed and integrated RESTful APIs using Laravel to handle user profiles, job postings, and real-time messaging functionalities.
- Utilized Laravel (Eloquent ORM) for efficient data management and model relationships, optimizing database query response times.
- Led the project lifecycle from requirement gathering to deployment, demonstrating end-to-end ownership.

ReUniteus Humanitarian Platform | Front-End Developer

2023-2024

- Built reusable Nuxt components for family profile creation and search results, contributing to a 30% faster development cycle for the core application features.
- Implemented state management using Pinia to efficiently handle application-wide data like user sessions and search criteria.
- Collaborated in an Agile, cross-functional team using Git for version control, participating in weekly sprints and code reviews.

SKILLS

- Languages:** JavaScript, PHP, SQL, HTML5, CSS3
- Front-End:** Nuxt.js, Vue.js, React, State Management (Pinia, Context API, Composition API)
- Back-End:** Node.js, Express.js, Laravel, RESTful API Development
- Databases:** MySQL
- Tools & Practices:** Git, GitHub, Netlify, Responsive Design, Agile Methodologies
